SESSIONS

"This course is long awaited! Answers all my queries ... "

The S.U.R.E. series was a new initiative launched in early 2015 to bring greater clarity on IRAS perspectives and its e-tax guides.

Be it TED, S.U.R.E. or ABC series, SIATP's technical sessions continue to be highly sought after!

Technical Submissions - The bridge between authorities & the profession

SIATP continued to play its role as the voice of the profession and brought forth relevant suggestions, feedback points of and clarification from our members to the authorities of which many suggestions were adopted by IRAS and clarification achieved!

Besides participating in various roundtables and technical consultancy exercises by government authorities, SIATP also made a wide range of quality technical submissions - from income tax amendment bills to R&D tax measures, from partial exemption and input tax recovery to FRS 115 on revenue recognition.
